TO WHOM IT MAY CONCERN

We are delighted to recommend our partner for Japan and Vietnam as an engaged and trustworthy partner. **K.K. IRISU (C. ILLIES & CO., LTD.)** is more than 150 years active in Japan, they know how to inspire confidence and enthusiasm. They are well acquainted with customs of Japanese companies. It is a pleasure for us to cooperate with them since many years.

Indeed a knowledgeable experienced partner is of great importance to serve our clients and prospective clients with our complete program existing of a huge range of different cores like Kevlar®, Nomex, glassfiber core, automatic perforated core of different types and 3D Honeycombs within a resonable time frame. By our Center of Excellence we can offer and support for Design & Engineering as well as new developments following your requirements.

Our partner is familiar with a multitude of prefabriacted parts of different materials usable in lavatories, galleys, crew rest compartments, dog houses, etc..Of course, we can service you too with autoclave technology, large-x-ray unit as well as technical support to achieve cost reductions by technical improvements.

By the assitance of our partner you can achieve short delivery times, competitive pricing and excellent quality of our products. It is an integral part of our serios partner policy.

Sincerely Yours,
EURO-COMPOSITES® S.A.
