

**IN OUR TOKYO OFFICE WE ARE LOOKING TO FILL THE POSITION OF
SERVICE ENGINEER - PRINTING MACHINERY**
starting immediately

The remarkable pioneer spirit shown by the German founders of K.K. IRISU (ILLIES), established in 19th century Dejima-Nagasaki shortly after Japan's first cautious steps towards emergence from international isolation, has remained an integral part of the firm's values. Through combining such value with our deep understanding of the Japanese market and our close ties with globally leading technology suppliers, we continuously strive to provide the best possible solutions for our customers. In order to continue and expand our firm's long success story, we rely on one core asset: our people. Investing into our colleagues, providing significant personal growth opportunities and creating a pleasant work experience are therefore cornerstones in K.K. IRISU's (ILLIES) operations.

A dynamic and international-minded company culture raises your interest? You would like to work in a supportive environment with motivated colleagues and the steady excitement of introducing state-of-the-art technology to our customers? Assuming responsibility for interesting projects from day one, and enjoying an unparalleled degree of flexibility in your daily work sounds promising to you? Apply today to be part of our team, and leverage your personal growth together with us.

YOUR TASKS:

- Various large printing machinery setting, service work and trouble shooting.
- Advise customers, propose to customers and implement at customers upgrades (technical improvement programs).
- Preventive maintenance.
- Cooperation with service partners and communication as an interface between customers and sales departments.
- Attend and support overseas suppliers' service engineers and supervisors for installation, commissioning and service work, commissioning work.

YOUR PROFILE:

- At least 6 years experience as field service engineer.
- Ample experience with PLC controls and/or electrical control system. Ability to read electrical diagrams / drawings.
- Communication skill in an international environment.
- Self-starter and flexible personality.
- Ability to work as a team member and to collaborate.
- Japanese native level.
- English level: Daily communication and technical terms (TOEIC of at least 500 preferable).

YOUR BENEFITS:

Paid holiday, social insurance, holidays (Saturday, Sunday and public holiday) and transport expenses
